Inspiring Ideas, Connections and Professional Development All at the IIE Annual Conference & Expo 2016

Get excited for the largest industrial and systems engineering event of the year. Workshops, case studies, thought leadership, research and connections are all reasons to attend.

Here’s what makes this event so great:

- Case studies and applications by industry
- Thought leadership from keynote, oral and poster presentations
- Research from academia and industry scholars
- Workshops that provide new techniques and understanding of important topics
- Connections with your colleagues from around the world
- Tours that show how ISE principles are put into action
- Exhibitors showcasing the latest products and services
- Recognition of achievement at all career stages
